1. Application

Educational leave may be subsidized or granted with no financial assistance. - 2.1 85% of salary plus full tuition and other agreed-upon expenses may be granted, if the education program
 - meets a knowledge/skill requirement which is essential for the efficient and effective operation of a College program; or
 - relates specifically to the staff member's present planned work requirements; or
 - directly benefits the College.
- 2.2 15-85% and/or agreed upon expenses may be granted when the education program
 - contributes significantly to the College's operations, but is not essential; or
 - is generally related to the staff member's present or planned work requirements; or
 - only indirectly benefits the College.
- 2.3 No financial assistance
Leave for educational purposes may be granted without pay or other financial assistance when the educational program
 - is not required for the College; or
 - is not related to the staff member's present or planned work requirements; or
 - primarily benefits the staff member.
